Design and manufacture of RFId – NFC transponders standard or custom, for any industrial application

Since 2007 we design and produce in Italy a wide range of RFID/NFC Tags Standard or Custom. Thanks to our know-how and advanced technologies we produce solid, reliable and economical transponders for any application of industrial tracking especially in harsh environments.

Frequencies: LF – HF – NFC – UHF

Typical Applications of our RFId/NFC products

- ❖ **Fashion-Apparel–Textile:** flexible tags, waterproof IP68, resistant to washing, cleaning and heat
- ❖ **Assets tracking indoor & outdoor:** rigid or flexible tags, resistant to shocks, pressures, temperatures, UV rays etc.
- ❖ **Food and medical Industries:** Tags made of special materials, approved food-contact and medical-use
- ❖ **Logistics & Warehousing:** rigid or flexible tags, also mount on metal, with high read performance
- ❖ **Agriculture & plants:** durable and economical tags, IP68, UV rays resistant, good performance in outdoor environment for years
- ❖ **Access Control:** Special Tags for DPI, access points, check point for vehicles or persons
- ❖ **Industrial containers and pipes :** rigid, flexible or magnetic tags, also mount on metal, with different layouts and RF performance
- ❖ **Waste-management:** UHF tags On / Off metal, specific waste containers, with coding and custom printing
- ❖ **Supply chaine:** Tags chemical resistant, temperature, mechanical stress etc. for any industrial environment

Wintag ✓ **Skill of Production since 1990**
Know-How ✓ **Skill of Plastic Engineering**
✓ **Skill of RFId Technologies**

Our standard Transponder

"Full Service Customization"

Design & Manufacturing of Special Hard-Tags

We can offer to our customers a complete service from the Idea to the final Product

Collect needs and offer solutions

Our technical staff is expert on RFID technologies, and it is at your disposal to design and prototype quickly, Special Tags for any specific application. We have expertise and internal resources that allow us to be leaders in the development of products for any non-standard specific needs.

Expertise.... Quality.... Quickness

We have great experience in RFID technology and produce our products in our factory in Italy for small or large series

Please contact our technical dept. for more information

- ✓ **RFID/NFC Smart-Label:** we offer a wide range of smart-labels, made of Paper or Pet, also special versions with custom dimensions and high-performance 3M adhesives.
Services: printing and serial encoding chip, special packaging
- ✓ **RESINED RFID/NFC Smart-label:** we offer a wide range of smart-labels coated by CLEAR RESIN that enhances the print and makes it more resistant.
Services: printing and serial encoding chip, special packaging
- ✓ **ISO-CARD (Badge):** available in different frequencies and different chips.
Services: custom printing in colors, encoding chip.
- ✓ **Industrial NFC Tag:** wide range of very resistant and durable NFC tags for any industrial use, OFF Metal and ON Metal versions
Services: printing and serial encoding chip, special packaging
- ✓ **Industrial RFID Tag:** wide range of very resistant and durable RFID tags for any industrial use, OFF Metal and ON Metal versions
Services: printing and serial encoding chip, special packaging
